17—23.02.2025

CRISTÓBAL BALenciAGA MUSEOA

This is an intermediate level activity, which is part of the course programming of the fantasy itinerary, and which can be carried out either as part of the proposed plan, or as an independent initiative. The programme content proposes an approximation to the specific methods used in the fantasy ateliers of the Balenciaga House and will address the realization of a lace bodice with a silk taffeta base open both on the side and on the left shoulder.

The training will be structured into seven modules based on audiovisual contents purpose-made to provide an explanation and guidance on the exercises to be carried out. Live online tutorial sessions will also be available for each module, where the instructor will answer the participants' doubts and questions.

The audiovisual contents include demonstrations of his particular sewing and pressing techniques; furthermore, in order for the participants to obtain practical skills in these techniques, they will be required to replicate the processes by putting what they have learned into practice. The audiovisuals can be viewed unlimitedly within the dates established for each module and the participants can organise the development of the proposed exercises at their convenience based on the estimated time of dedication.

The tutoring sessions will take place live, through the Zoom platform, on Tuesdays and Thursdays, in the afternoon, with an approximate duration of 1 hour.
